Mobile thermal transfer printer for marking materials in cartridge format incl. accessories in the practical case from the proven L-BOXX system. The printer can print prepunched labels as well as materials in continuous format up to a material width of 24 mm.

Product description

The THERMOMARK GO SET contains a mobile printer that elevates the digitalization of industrial identification to a new level with its intuitive operation via smart device. Controlled via the MARKING system app, the robust printer creates markings directly on site. Features such as state-of-the-art interfaces, fully guided creation of application-specific identification solutions, and automatic material detection make the process of creating markings particularly easy and error-free. The ability to print die-cut materials as well as continuous media offers professional users a wide variety of applications in industry and trade.
