CCC-Exempt Declaration for Relay Sockets

As we know, CCC certification is mandatory in China, and CNCA is the responsible committee for the definition of CCC application range. So please visit the website below for the bulletin (No. 11 of year 2018) of CNCA for CCC regulations regarding appliance couplers for industrial purpose.

http://www.cnca.gov.cn/xxgk/ggxx/2018/201806/t20180615_56710.shtml

According to the annex of the bulletin (No. 11 of year 2018) of CNCA, the category 0203, 'Appliance couplers for industrial purpose', which is applicable for our relay sockets (alternative designations: relay base terminal block, relay base) is canceled from CCC.

As a conclusion, all of our relay sockets are not in CCC application range.

Date of creation: 2018-11-22
