

CCC-Exempt Declaration

As we know, CCC certification is mandatory in China for defined products, and CNCA is the responsible committee for the definition of CCC application range. So please visit the website below for the latest bulletin (No. 45 of year 2014) of CNCA for CCC:

http://www.cnca.gov.cn/xxgk/ggxx/2014/201512/t20151230_44252.shtml

Part-No and description of product,

Description of product function:

The main function of terminal blocks is the connection of power and signal in industrial applications.

Reason why CCC certification is not required:

According to the annex of the announcement (No. 45 of year 2014) of CNCA, terminal blocks are not covered in CCC categories.

And, terminal blocks are compliance with IEC 60947-7-1, IEC 60947-7-2 and IEC 60947-7-3, which are identical to GB/T 14048.7, GB/T 14048.8 and GB/T 14048.18. These GB/T standards are not covered in this annex of CNCA announcement.

So, we can have a conclusion that terminal blocks are not in CCC application range.

Date of creation: 2019-09-10
