USB Accessories for Harmony Terminals

Tower light, illuminated switch and keyboard

Presentation

The USB accessories for Harmony are designed to expand the selection range of user applications by offering value-added/differentiated HMI solutions. These innovative USB accessories can be easily installed and operated with HMI terminals (panels).

The USB accessories for Harmony terminals include:

- Harmony XVGU USB tower light
- Harmony HMIZ illuminated USB switch
- Harmony HMIZ USB Keyboard

The following illustrates the configuration of USB accessories with Harmony HMIs.

1 The HMI application is created on a computer using the Vijeo Designer HMI configuration software. The application is then downloaded to the Harmony HMIs via a USB cable for:

- Harmony XVGU tower light: Setting situation, colors, and buzzer actions (1)
- Harmony HMIZ illuminated USB switch: Setting and operating as alarm console (display and acknowledgement) or illuminated function keys (1)
- Harmony HMIZ USB Keyboard: Operating in alphanumeric input or function key mode with a real sense of clicking (2)

2 The USB accessories are connected to Harmony HMI terminals by a USB cable for power supply and data transmission. Each Harmony HMI terminal can also support two or more USB accessories (one of each kind) via a USB hub with an external power supply.

The following table lists the Harmony HMIs that are compatible with USB accessories.

Harmony HMIs	USB accessories for HMI terminals		
	USB tower light	Illuminated USB switch	USB Keyboard
	XVGU3S●●●	HMIZRA1	HMIZKB1

HMIGTW	No	Yes	No
HMIGTO	Yes	Yes	Yes
HMIGXO	Yes	Yes	Yes
HMISTU	No	No	Yes
HMISCU	Yes	Yes	Yes

(1) Compatible with Vijeo Designer HMI configuration software V6.1, Service pack 1.
 (2) Compatible with Vijeo Designer HMI configuration software V6.2 or higher.

USB Accessories for Harmony Terminals

Tower light, illuminated switch and keyboard
Harmony XVGU Multi-color USB tower lights

Harmony HMIs (1)

Presentation

The monolithic USB tower lights of the Harmony® XVGU range supports Harmony HMIs (1). These tower lights with multi-color LEDs are unique and simple-to-use as the states and patterns are directly set and modified in the HMI application.

The XVGU tower lights provide long distance indication of the operating status or sequences of a machine or installation, both visually by illuminated signaling units with 360° visibility, and audibly by a buzzer.

- The tower light comes with a pre-assembled USB cable for simple wiring and easy integration with the Harmony HMIs (1) (2).
- The tower light settings are selected from the Set screen of the HMI application at the time of integration.
 - The multi-color LEDs on the three levels can be set to numerous color combinations (red, orange, green or blue) for sophisticated signaling.
 - The 2-tone buzzer volume and alarm type (4 pre-recorded types) can be set easily.
- The tower lights allow to optimize your equipment: many customized configurations can be made from a sole product.
- The range involves Ø 60 mm/2.36 in. products and is therefore ideal for use in many activity sectors (textiles, packaging, baggage handling). It is also ideal for use with metal tools, plastic extrusion machines and assembly lines. This range is only for indoor applications.

XVGU tower lights are supplied:

- with 3 multi-color LEDs and a clear lens
- with a 2-tone buzzer
- with pre-assembled USB cable for easy connection (2)
- with USB cable clamp for firm connection
- fitted with one of the following mounting options:
 - direct base mounting (IP 54)
 - aluminium tube mounting and fixing plate (IP 54)

Environment

- Product certifications: CE, UL, CSA, GOST, and RCM
- Conformity to standards:
 - IEC 61000-6-2
 - IEC 61000-6-4
 - UL 508
 - CSAC22.2 No 14-13
- Degree of protection:
 - IP 54
- Ambient air temperature:
 - For storage: - 35 to + 70 °C/- 31 to + 158 °F
 - For operation: 0 to + 55 °C/32 to + 131 °F

(1) Compatible with XBTGT (except GT1000 series), XBTGC (with SoMachine platform), XBTGK and HMIGTO terminals.

(2) For extension, use either the Schneider Electric USB cable (BMXXCAUSBH018) or a third-party USB Type A/mini B cable of maximum length 4 m/13.12 ft.

USB Accessories for Harmony Terminals

Tower light, illuminated switch and keyboard
Harmony XVGU Multi-color USB tower lights

Presentation (continued)

Illuminated signaling

The light source consists of three multi-color LEDs (red, orange, green or blue) completed with a clear lens to provide an aesthetic look and reliable signaling (clear lenses help to avoid color reflectance in bright environments). When LEDs are not powered, the tower lights appear translucent. The LED colors can be set to many possible combinations of red, orange, green, and blue.

Audible signaling

The tower light is supplied with a 2-tone buzzer audible signaling unit, the volume of which can be adjusted up to 85 dB. This audible unit with 4 pre-recorded alarm types is located in the base of the tower light.

Cabling

XVGU tower lights have pre-assembled USB cable with "Type A female" connector to attach to any standard USB mini B cable. A clamp is provided to prevent unintended removal or disconnection of the tower light from the Harmony HMIs.

Description

XVGU monolithic tower lights comprise an assembly of:

1. Three layers of multi-color illuminated signaling units (red, orange, green, or blue) which are set in the HMI application. Each XVGU tower light is equipped with multi-color LEDs and a clear lens molded from a single piece of clear plastic. The colors are visible only when the LEDs are supplied with power (5 V \overline{DC}).
2. A base unit integrating the buzzer.
3. A fixing base for mounting on a horizontal support:
 - 3a a fixing base, comprising a 100 mm/3.94 in. aluminium support tube mounted on a fixing plate
 - 3b a fixing base fitted with 3 screws for direct mounting
4. A USB cable with "Type A female" connector, the projecting length being 300 mm/11.81 in. for tube mounting and 400 mm/15.75 in. for direct mounting models (1).

(1) For extension, use either the Schneider Electric USB cable (BMXXCAUSBH018) or a third-party USB Type A/mini B cable of maximum length 4 m/13.12 ft.

USB Accessories for Harmony Terminals

(1) Compatible with Vijeo Designer HMI configuration software V6.1, Service pack 1.

Note: Signaling colors correspond to a combination of 4 colors (red, orange, green, and blue) which can be set easily in the HMI application.

USB Accessories for Harmony Terminals

Tower light, illuminated switch and keyboard
Harmony HMIZ Illuminated USB switch

HMIZ illuminated USB switch

Presentation

The illuminated USB switch is uniquely designed for easy visualization and quick acknowledgement of alarm (wide view angle and brightness). This switch with click sensation is also used as a function key in HMI applications where the touch panel involves repetitive and reliable operations in dirty environments. This keeps the touch panel clean and protected by avoiding continuous finger contact.

The illuminated USB switch can be easily wired, powered by the USB cable and integrated with the Harmony HMI. This range is ideal for use in industrial applications like machine tool, packaging, printing, automotive, metal processing, food and beverage, and paper.

With Vijeo Designer HMI configuration software (1), the illuminated USB switch can be set to the following:

- Alarm display and acknowledgement:
 - The 5 multi-color LEDs are configured in the Vijeo Designer (1) to display single or multiple alarm statuses. The users can quickly access these operations of alarm acknowledgement by pressing the integrated function keys.
- Illuminated function keys:
 - The illuminated USB switch can be used as function keys by configuring them in the Vijeo Designer software (1). The 5 multi-color LEDs are linked to the PLC variables to show the status of operation feedback.
 - Vijeo Designer software can configure the function keys to support most of the HMI touch panel operations.

Mounting

The illuminated USB switch is fixed by a nut (hand-tightened without a tool or tightened by a wrench) in a standard 22 mm/0.866 in. diameter hole. It can be installed on flat and vertical surfaces.

Environment

- Product certifications: UL, CSA, and GOST
- Conformity to standards:
 - CSA C22-2 n° 142
 - UL 508
 - IEC 61000-6-2 and IEC 61000-6-4
- Degree of protection conforming to standards:
 - IP 65 for IEC 60529
 - NEMA 4X for NEMA 250
- Ambient air temperature:
 - For storage: - 20 to + 60 °C/- 4 to +140 °F
 - For operation: 0 to + 55 °C/32 to +131 °F

Description

The illuminated USB switch consists of a green rear cover 1 and a dark gray front cover 2. There are 5 function keys 3 on its front face with LED backlit. Each function key 4 has one multi-color LED indicator (green, red, orange, blue, yellow and white).

An insert label sheet, comprising of 3 customizable labels, is supplied with the illuminated USB switch.

(1) Compatible with Vijeo Designer HMI configuration software V6.1, Service pack 2.

USB Accessories for Harmony Terminals

Tower light, illuminated switch and keyboard
Harmony HMIZ USB Keyboard

HMIZ USB Keyboard

Presentation

The USB Keyboard is designed for flexible mounting and easy plug-&-play handling. The tactile keys are suited for HMI applications where the touch panel involves repetitive operations in harsh environments (oil, dust, etc). This also speeds up the data entry by the operator and provides freedom in screen design.

The users can select small size HMIs and use USB Keyboard to save the control panel space. This range is ideal for use in industrial applications like food & beverage, machine tool, and packaging.

The USB Keyboard keys can be used in two different modes:

- Function mode (default)
 - 2 function keys can be pressed simultaneously
 - Shift key + Function key can be pressed simultaneously
- Entry mode
 - Alphanumeric input (similar to the old mobile phone keypad)
 - Numeric input

Mounting

The USB Keyboard is fixed into the 22.5 mm/0.880 in. diameter panel cut-out by a installation nut (hand-tightened without a tool or tightened by a tightening wrench). It can be installed on flat and vertical surfaces.

Environment

■ Product certifications: CSA, GOST-R, KCC, CE and UL
