The information provided in this documentation contains general descriptions and/or technical characteristics of the performance of the products contained herein. This documentation is not intended as a substitute for and is not to be used for determining suitability or reliability of these products for specific user applications. It is the duty of any such user or integrator to perform the appropriate and complete risk analysis, evaluation and testing of the products with respect to the relevant specific application or use thereof. Neither Schneider Electric nor any of its affiliates or subsidiaries shall be responsible or liable for misuse of the information contained herein. If you have any suggestions for improvements or amendments or have found errors in this publication, please notify us.

No part of this document may be reproduced in any form or by any means, electronic or mechanical, including photocopying, without express written permission of Schneider Electric.

All pertinent state, regional, and local safety regulations must be observed when installing and using this product. For reasons of safety and to help ensure compliance with documented system data, only the manufacturer should perform repairs to components.

When devices are used for applications with technical safety requirements, the relevant instructions must be followed.

Failure to use Schneider Electric software or approved software with our hardware products may result in injury, harm, or improper operating results.

Failure to observe this information can result in injury or equipment damage.

Safety Information

Important Information

NOTICE

Read these instructions carefully, and look at the equipment to become familiar with the device before trying to install, operate, or maintain it. The following special messages may appear throughout this documentation or on the equipment to warn of potential hazards or to call attention to information that clarifies or simplifies a procedure.

The addition of this symbol to a “Danger” or “Warning” safety label indicates that an electrical hazard exists which will result in personal injury if the instructions are not followed.

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

⚠ DANGER

DANGER indicates a hazardous situation which, if not avoided, **will result in** death or serious injury.

⚠ WARNING

WARNING indicates a hazardous situation which, if not avoided, **could result in** death or serious injury.

⚠ CAUTION

CAUTION indicates a hazardous situation which, if not avoided, **could result** in minor or moderate injury.

NOTICE

NOTICE is used to address practices not related to physical injury.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com

PLEASE NOTE

Electrical equipment should be installed, operated, serviced, and maintained only by qualified personnel. No responsibility is assumed by Schneider Electric for any consequences arising out of the use of this material.

A qualified person is one who has skills and knowledge related to the construction and operation of electrical equipment and its installation, and has received safety training to recognize and avoid the hazards involved.

About the Book

At a Glance

Document Scope

This documentation is a reference for the Harmony XB5R wireless and batteryless pushbutton.

Validity Note

This documentation is valid for Harmony XB5R.

The technical characteristics of the devices described in this document also appear online. To access this information online:

Step	Action
1	Go to the Schneider Electric home page *www.schneider-electric.com*.
2	In the **Search** box type the reference of a product or the name of a product range. ● Do not include blank spaces in the model number/product range. ● To get information on grouping similar modules, use asterisks (*).
3	If you entered a reference, go to the **Product Datasheets** search results and click on the reference that interests you. If you entered the name of a product range, go to the **Product Ranges** search results and click on the product range that interests you.
4	If more than one reference appears in the **Products** search results, click on the reference that interests you.
5	Depending on the size of your screen, you may need to scroll down to see the data sheet.
6	To save or print a data sheet as a .pdf file, click **Download XXX product datasheet**.

The characteristics that are presented in this manual should be the same as those characteristics that appear online. In line with our policy of constant improvement, we may revise content over time to improve clarity and accuracy. If you see a difference between the manual and online information, use the online information as your reference.

Product Related Information

The application of this product requires expertise in the design and programming of control systems.

⚠ WARNING

UNINTENDED EQUIPMENT OPERATION

Only persons with expertise in the design and programming of control systems are allowed to program, install, alter, and apply this product.

Follow all local and national safety codes and standards.

Failure to follow these instructions can result in death, serious injury, or equipment damage.

Chapter 1
Harmony XB5R Introduction

Purpose

This chapter provides an overview of the Harmony XB5R.

What Is in This Chapter?

This chapter contains the following topics:

Topic	Page
General Presentation of Harmony XB5R	10
Presentation of Harmony XB5R Ready to Use Packages	12
Presentation of XB5R Components	14

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

General Presentation of Harmony XB5R

Offer Presentation

Harmony wireless and batteryless pushbuttons are used for remote control of a receiver relay using a transmitter pushbutton. Control is via radio transmission: the transmitter is equipped with a “dynamo” generator that converts the mechanical energy produced by pressing the pushbutton into electrical energy. A radio-coded message with a unique ID code is sent, in a single pulse, to one or more receiver(s) located several tens of metres away (see figure A). One receiver can also be activated by different transmitters (see figure B).

This technology cannot be used for hoisting applications (“raise/lower”, “left/right”, etc. movements) or safety applications (emergency stop buttons etc.). The Harmony XB4 and XB5 wired pushbutton range or the XAC pendant control station range have to be used for these applications.

⚠ WARNING

UNINTENDED EQUIPMENT OPERATION

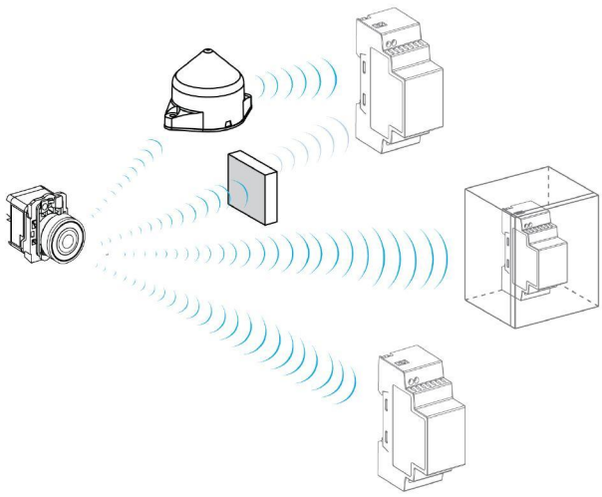
- Do not use this equipment in safety critical and hoisting machine functions due to:
  - No permanent communication.
  - No acknowledge of the message from the receiver to the transmitters.
- Use appropriate safety interlocks where personnel and/or equipment hazards exist.
- Do not disassemble, repair, or modify this equipment.
- Install and operate this equipment in an appropriately rated enclosure for its intended environment.
- Install properly rated fuses.
- Check that the control is not actived if the product falls during transit.

Failure to follow these instructions can result in death, serious injury, or equipment damage.

NOTE: The rated fuses are indicated in the Receiver Wiring Diagram *(see page 42)*.

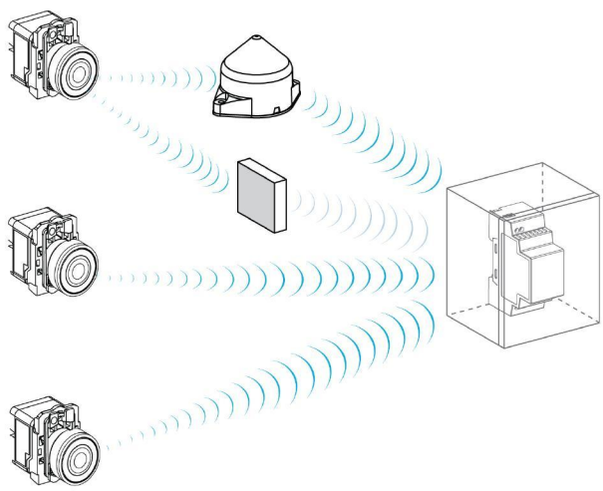
RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Figure A: Transmission between 1 Transmitter and 3 Receivers



NOTE: One transmitter can be taught and can activate several receivers. The number of receivers is not limited.

Figure B: Transmission between 3 Transmitters and 1 Receiver



NOTE: One receiver can be activated by several transmitters. The number of transmitters is limited: 32 transmitters maximum.

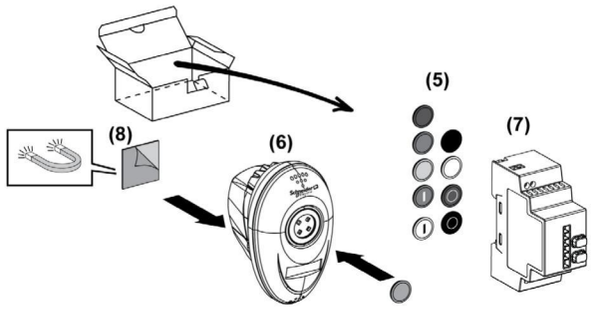
XB5RMA04



1 Transmitter
2 Head
3 Cap
4 Non-programmable receiver
5 Set of 10 caps
6 Transmitter + Head + Mobile box
7 Programmable receiver
8 Magnet (could be glued on the box if needed)

⚠ DANGER

HAZARD OF ELECTRIC SHOCK, EXPLOSION OR ARC FLASH

• Disconnect all power before servicing equipment.

• Use only the specified voltage when operating this equipment and any associated products.

Failure to follow these instructions will result in death or serious injury.

Presentation of XB5R Components

Transmitters

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

The following table describes the transmitter characteristics.

Designation	Pushbutton Type	Cap Color	Reference	Mass
Transmitter Only (1 frame sent at the push of the button)	–	–	ZBRT1	0.025 kg (0.055 lb)
Transmitter Only (1 frame sent at the push of the button, 1 frame sent at the release of the button)	–	–	ZBRT2	0.025 kg (0.055 lb)
Spring return pushbutton heads for transmitter ZBRT1	Plastic	Without cap	ZB5RZA0	0.015 kg (0.033 lb)
	Metallic	Without cap	ZB4RZA0	0.030 kg (0.066 lb)
Pushbuttons including: ● a ZBRT1 transmitter fitted with fixing collar ● a spring return pushbutton head with clipped-in cap	Plastic	White	ZB5RTA1	0.045 kg (0.099 lb)
		Black	ZB5RTA2	0.045 kg (0.099 lb)
		Green	ZB5RTA3	0.045 kg (0.099 lb)
		“I” white on green background	ZB5RTA331	0.045 kg (0.099 lb)
		Red	ZB5RTA4	0.045 kg (0.099 lb)
		“O” White on red background	ZB5RTA432	0.045 kg (0.099 lb)
		Yellow	ZB5RTA5	0.045 kg (0.099 lb)
		Blue	ZB5RTA6	0.045 kg (0.099 lb)
	Metallic	White	ZB4RTA1	0.085 kg (0.187 lb)
		Black	ZB4RTA2	0.085 kg (0.187 lb)
		Green	ZB4RTA3	0.085 kg (0.187 lb)
		“I” White on green background	ZB4RTA331	0.085 kg (0.187 lb)
		Red	ZB4RTA4	0.085 kg (0.187 lb)
		“O” White on red background	ZB4RTA432	0.085 kg (0.187 lb)
		Yellow	ZB4RTA5	0.085 kg (0.187 lb)
		Blue	ZB4RTA6	0.085 kg (0.187 lb)
Spring return mushroom head for ZBRT1/ZBRT2 transmitters	Plastic	Black	ZB5RZC2	0.025 kg (0.055 lb)
Pushbutton including: ● a ZBRT1 transmitter fitted with fixing collar ● a spring return mushroom head	Plastic	Black	ZB5RTC2	0.055 kg (0.121 lb)
Rope Pull Switch	Plastic	Black	ZBRP1	0.150 kg (0.331 lb)

Chapter 2
Installation

Purpose

This chapter provides an overview of the Harmony XB5R installation.

What Is in This Chapter?

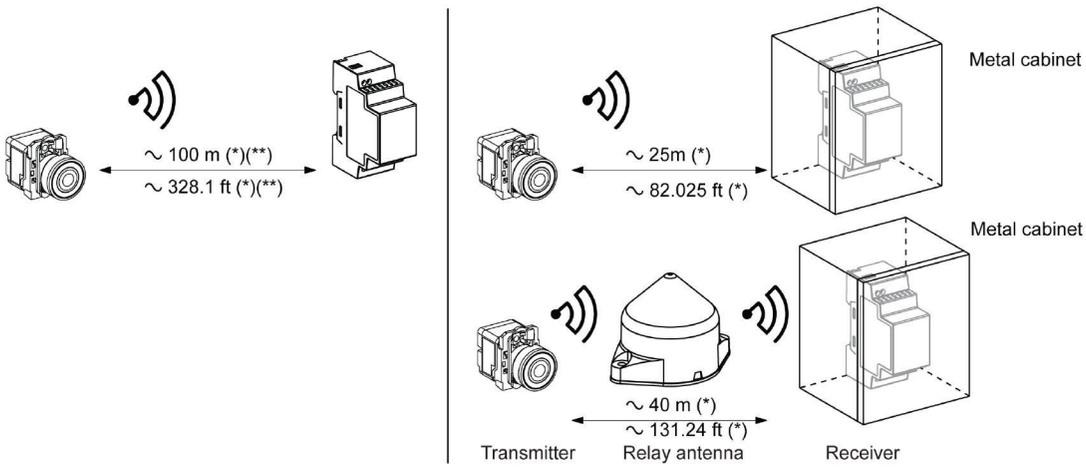
This chapter contains the following topics:

Topic	Page
General Installation Instruction for Harmony XB5R	22
Transmitter and Pushbutton Assembly	26
Transmitter and Pushbutton Disassembly	31
Mounting Data for Rope Pull Switch	33
Mounting Instructions for ZBRM01 Handy Box	34
Mounting Instructions for ZBRM21/ZBRM22 Mobile Boxes	36
Mounting instructions For ZBRACS Support	38
Receiver Assembly and Disassembly	39
Receiver Wiring Diagram	42
Relay Antenna Installation	44

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

General Installation Instruction for Harmony XB5R

Maximum Distances



(*) Typical values that may be modified by the application environment.

(**) Free field (unobstructed).

NOTE:

- The range may be increased by adding antenna ZBRA1.
- The range is reduced if the transmitter is placed in a metal box (reduction factor: approx 10%).
- Once wiring is complete, test the product in all possible active areas (while remaining within range).

The level of signal attenuation depends on the materials through which the signal will pass:

Glass window	10...20 % (*)
Plaster wall	30...45 % (*)
Brick wall	60 % (*)
Concrete wall	70...80 % (*)
Metal structure	50...100 % (*)

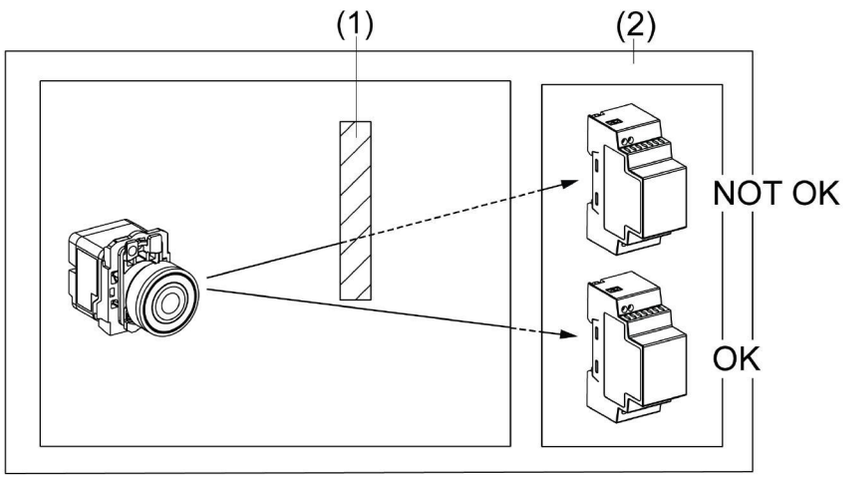
(*) Values for indication purposes only. Actual values depend on the thickness and nature of the material.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Installation Conditions

Transmitter operating temperature	-25...+70° C (-13...+158° F)
Receiver operating temperature	-25...+55° C (-13...+131° F)
Transmitter protection level	IP65/NEMA3
Receiver protection level	IP20
Transmitter shock resistance	IK03

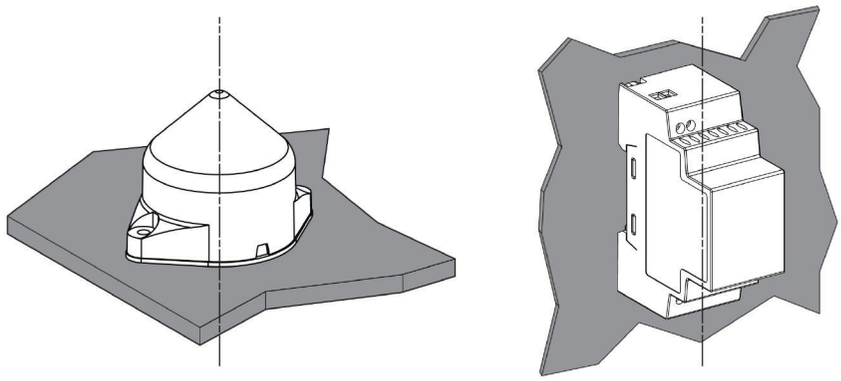
Mounting Tips



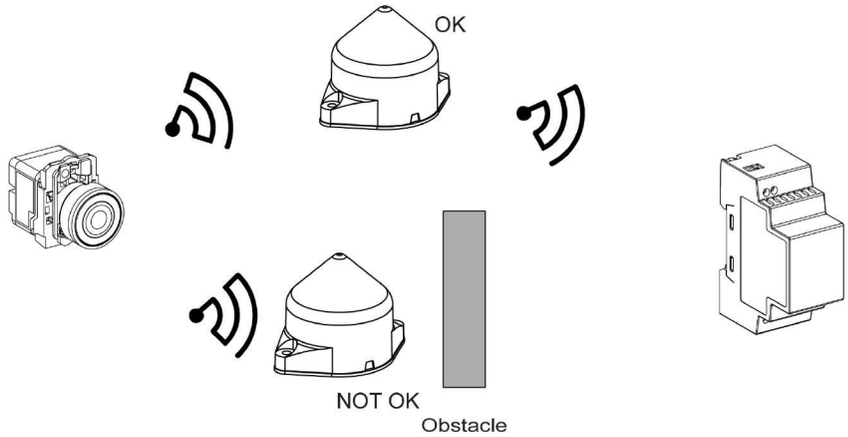
1 Metal structure
2 Wall
NOTE: To ease the radio transmission, the best is to avoid obstacles. Find the best place to install the transmitter and the receiver to have the minimum of obstacles.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Mounting Tips for Antenna

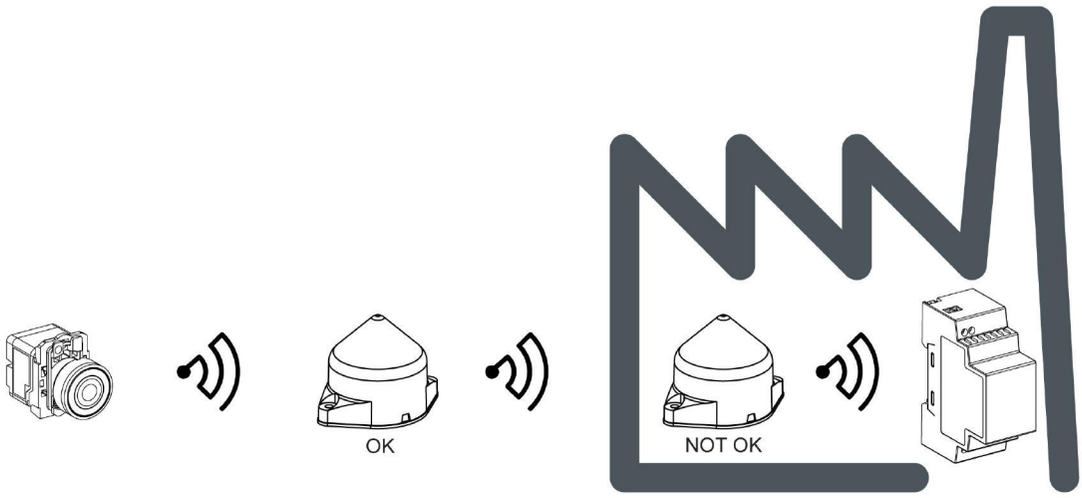


The antenna and the receiver are installed following their vertical axis.



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

The antenna is used to bypass the obstacle.



NOTE: The antenna should be placed before the obstacle. The signal will be amplified before the obstacle to enable to go through it.

Impact of the radio performances in the environment:

- For any environment, the radio performances are subjected to be instable due to perturbations made by any kind of industrial machines, processes, or electronic devices.
- As a result at any time, it is possible that radio frames sent by a transmitter will not be caught by the receiver during the perturbation.
- With XB5R offer, only one radio frame is sent to the receiver and there is no permanent radio communication. This reason makes to avoid the use of XB5R offer for applications where permanent reliability and/or permanent precisions are needed.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Transmitter and Pushbutton Assembly

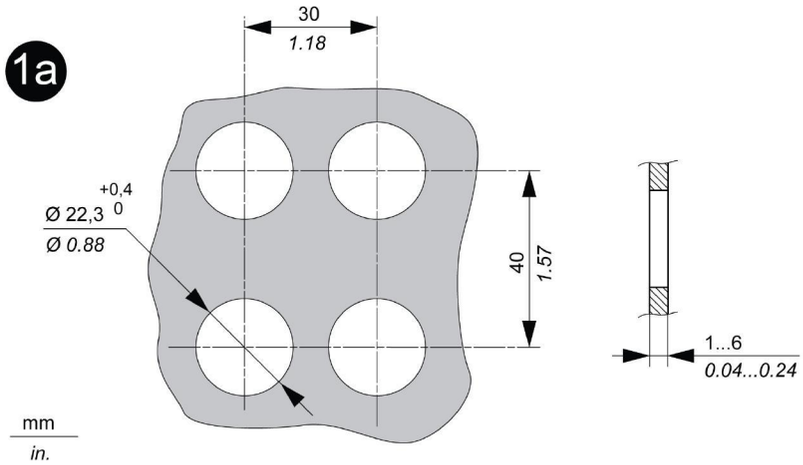
Introduction

Follow these steps to install the transmitter and pushbutton.

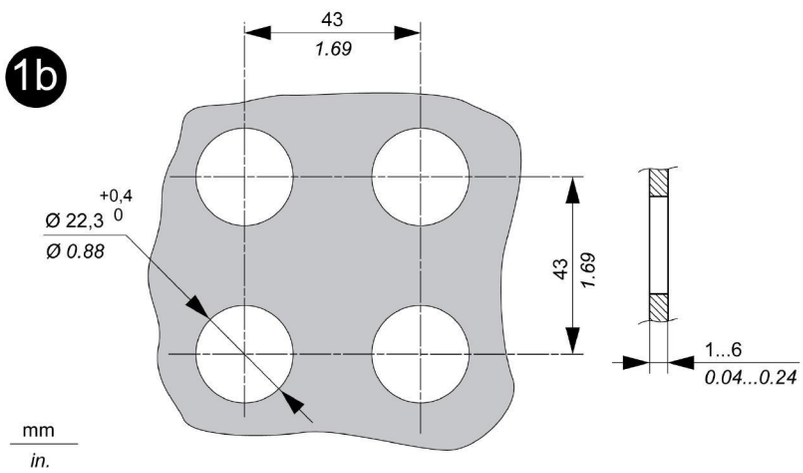
Step 1: Mounting on a panel

This figure shows the diameter of the holes for ZB5R or ZB4R pushbuttons.

For all ZB5R••• heads except ZB5RZC2:

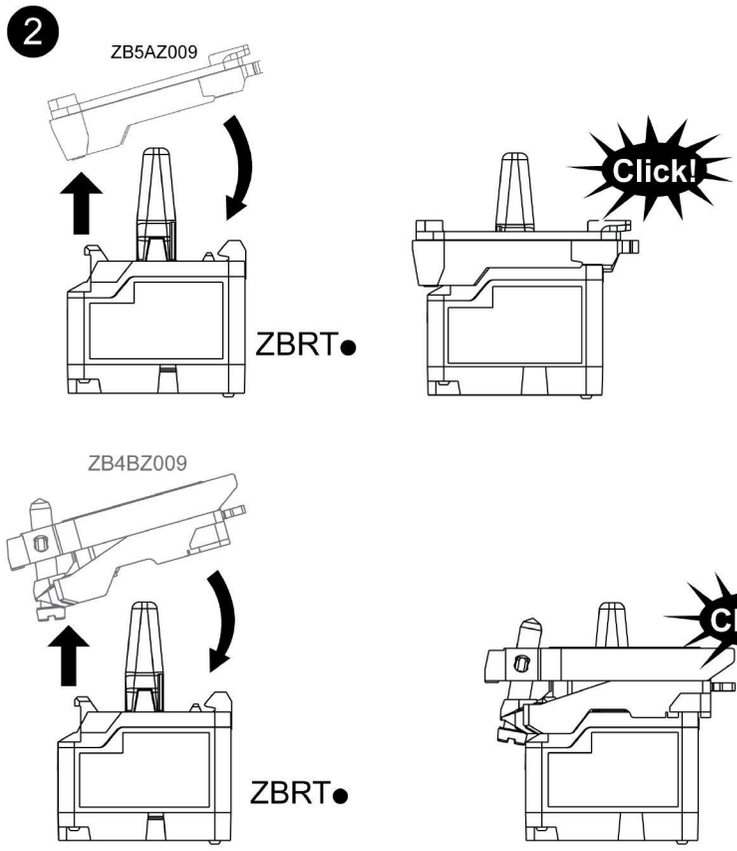


For ZB5RZC2 head:

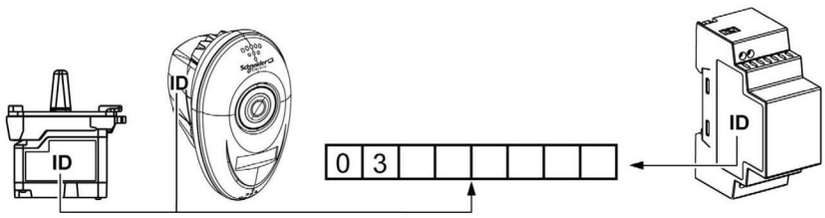


RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Step 2: Attach the mounting base to the transmitter



Packages: ID Registration



NOTE: Please note and retain your transmitter ID. You will need it for an ID reset. The ID reset is described in the Total Reset and ID Reset Procedure *(see page 69)*.

(3): Output contact ratings B300 Pilot Duty 3 A - 240 Vac Resistive.
(4): Output contact ratings B300 - R300 Pilot Duty 3 A - 240 Vac Resistive.

UL: Control of overvoltage to be provided after main service disconnect overcurrent device, with a UL1449 TVSS device (Transient Voltage Surge Suppressor) tested as type 2 (6kV/3kA min), with a MCOV (Maximum Continuous Operating Voltage) min rated to Phase to Phase voltage and a VPR (Voltage Protection Rating) of 1.5 kV.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

⚠ DANGER

HAZARD OF ELECTRIC SHOCK, EXPLOSION OR ARC FLASH

- Disconnect all power before servicing equipment.
- Use only the specified voltage when operating this equipment and any associated products.

Failure to follow these instructions will result in death or serious injury.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

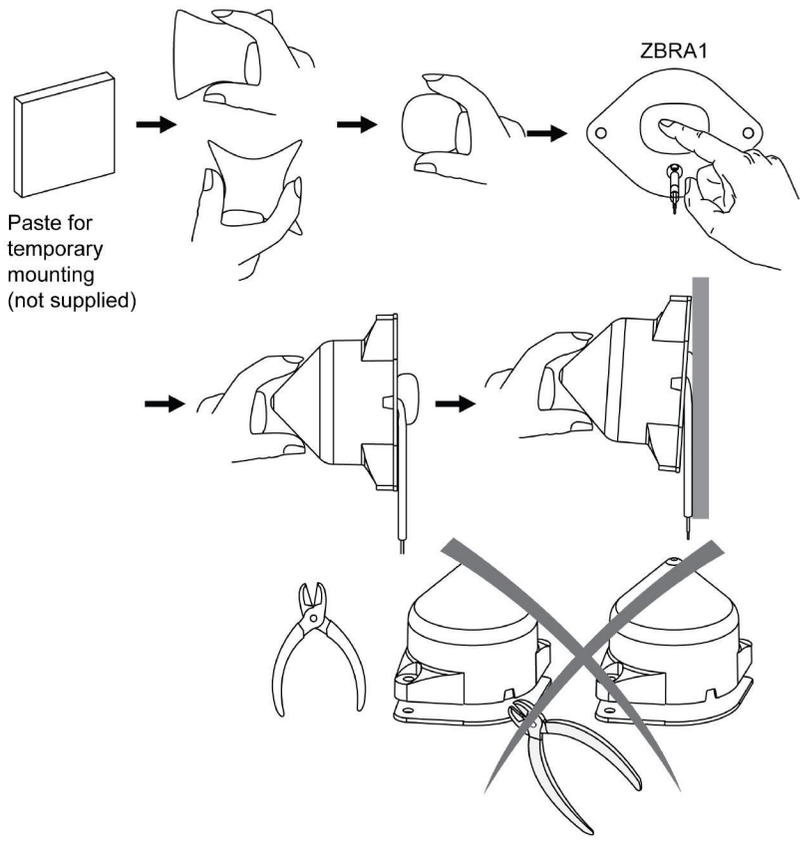
Relay Antenna Installation

Introduction

Observe the maximum distances between transmitter, antenna and receiver *(see page 22)* and the Mounting tips for antenna *(see page 24)*.

Temporary Mounting

This temporary mounting is used to search the best place for the antenna in order to enhance the radio signal.



NOTE: For temporary assembly the breakable part of the antenna must not be cut off.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Axial Cable Route

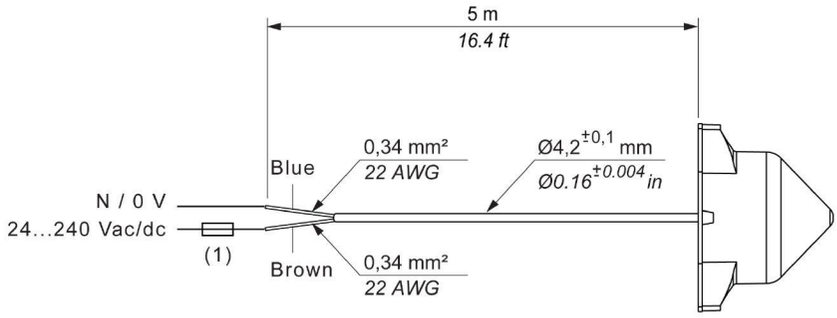
Wiring Diagram

The following figure shows the relay antenna wiring diagram for Harmony XB5R.



(1): 500 mA from supplier Bussman® reference GMA-500mA, 250 V 0.5 A fast-blow.

UL: Control of Overvoltage to be provided after main service disconnect overcurrent device, with a UL1449 TVSS device (Transient Voltage Surge Suppressor) Tested as type 2 (6 kV/3 kA min), with a MCOV (Maximum Continuous Operating Voltage) min. rated to Phase to Phase voltage and a VPR (Voltage Protection Rating) of 1.5 kV.

⚠ WARNING

UNINTENDED EQUIPMENT OPERATION

- Do not use this equipment in safety critical and hoisting machine functions due to:
  - No permanent communication.
  - No acknowledge of the message from the receiver to the transmitters.
- Use appropriate safety interlocks where personnel and/or equipment hazards exist.
- Install and operate this equipment in an enclosure appropriately rated for its intended environment.

Failure to follow these instructions can result in death, serious injury, or equipment damage.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Model: ZBRA1

FCC USA and I C Canada Compliance Statement

This device complies with part 15 of the FCC rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1) This device may not cause harmful interference.
2) This device must accept any interference received, including interference that may cause undesired operation of the device.

NOTE: Schneider Electric is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Changes or modifications not expressly approved by Schneider Electric responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1) L'appareil ne doit pas produire de brouillage.
2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Chapter 3
Preparing For Use

Purpose

This chapter explains how to prepare the Harmony XB5R for use.

What Is in This Chapter?

This chapter contains the following topics:

Topic	Page
Compatibility Rules	50
Transmitter Types	51
LED Status	53
Output mode: Monostable - Bistable - Stop/Start - Set/Reset	55
Changing outputs from Monostable to Bistable for XB•RFA02, XB5RMA04, ZBRRA, and ZBRRD	58
Changing Outputs From Monostable to Stop/Start for XB•RFA02, XB5RMA04, ZBRRA	60
How to Teach/Unteach Monostable, Bistable or Set/Reset Outputs for XB•RFA02, XB5RMA04, ZBRRA, ZBRRC, and ZBRRD	62
How to Teach Stop/Start Outputs for XB•RFA02, XB5RMA04, ZBRRA	64
Lock/Unlock for XB•RFA02, XB5RMA04, ZBRRA, ZBRRC, and ZBRRD	67

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Compatibility Rules

Transmitter Compatibility

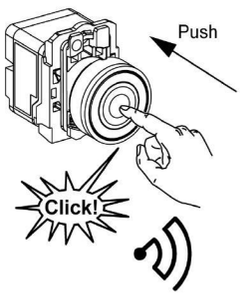
ZBRT2 transmitter is compatible with the following only:

- ZBRR• receivers with firmware version 2.0 and higher
- ZBRA1 relay antenna with firmware version 2.0 and higher
- ZBRN• access points with firmware version higher than 1.2

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

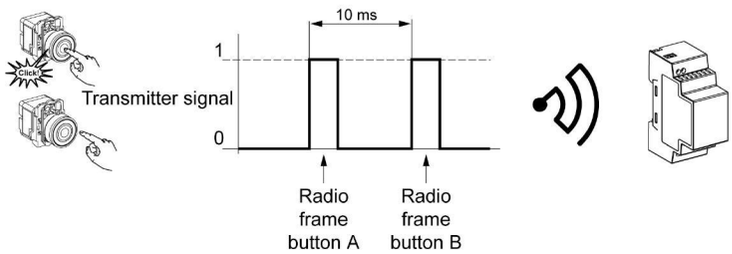
Transmitter Types

ZBRT1 and ZBRTP Transmitters



The radio message is sent when the button is pressed, signalled by a click. If the button is held down, the message is not transmitted continuously. The message is not sent when the button is released.

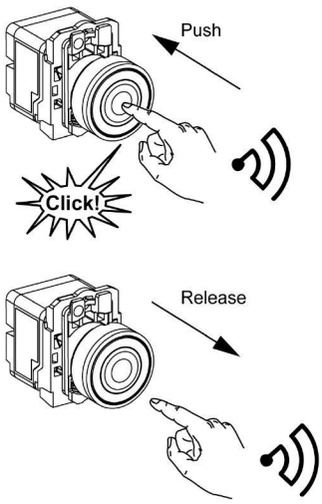
To avoid any conflict of multiple transmission from different transmitters, a minimum of 10 ms is required between each radio transmission.



ZBRT1 is used for applications where single pulse is required (for example, remote start of machine and reset after machine fault).

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

ZBRT2 Transmitter



The radio message is sent when the button is pressed, signaled by a click. If the button is held down, the message is not transmitted continuously.

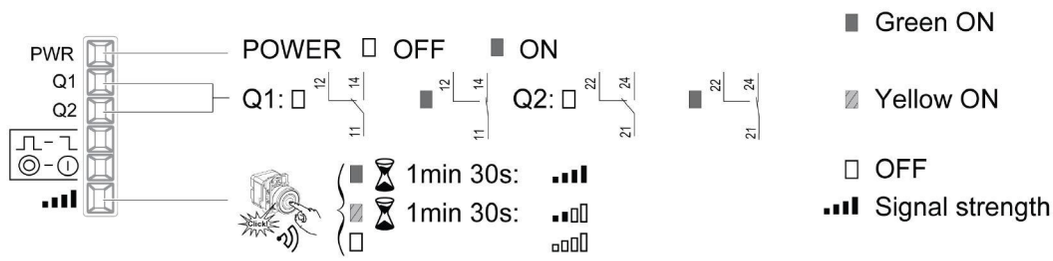
A second radio message is sent when the button is released. This message is not transmitted continuously. It is transmitted once, at the release of the push-button.

This transmitter is used only for the set/reset output mode.

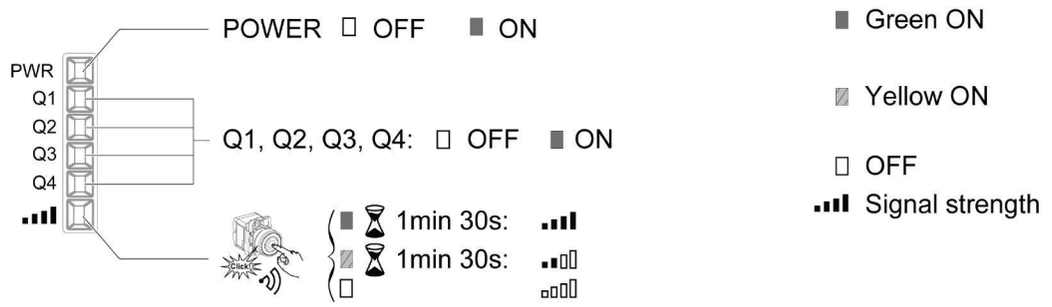
RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

LED Status

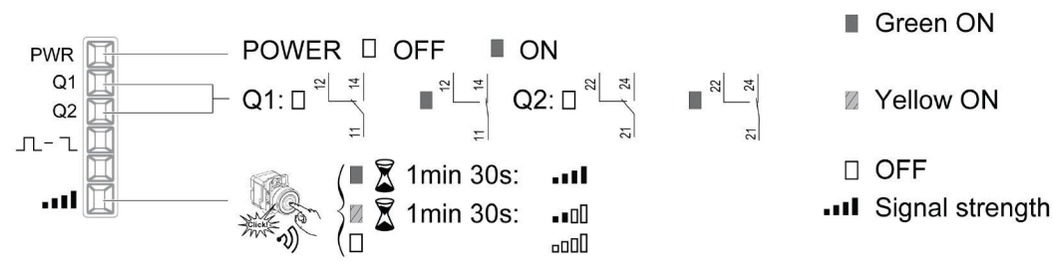
XB•RFA02 / XB5RMA04 and ZBRRA



ZBRRC



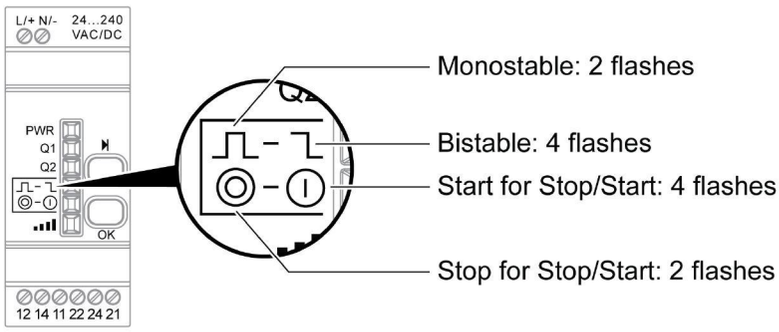
ZBRRD



NOTE: The signal strength LED indicates the value of the last signal received. The time out for the LED is 1min 30s. This LED could also be switched off by pressing once the selection button of the receiver.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

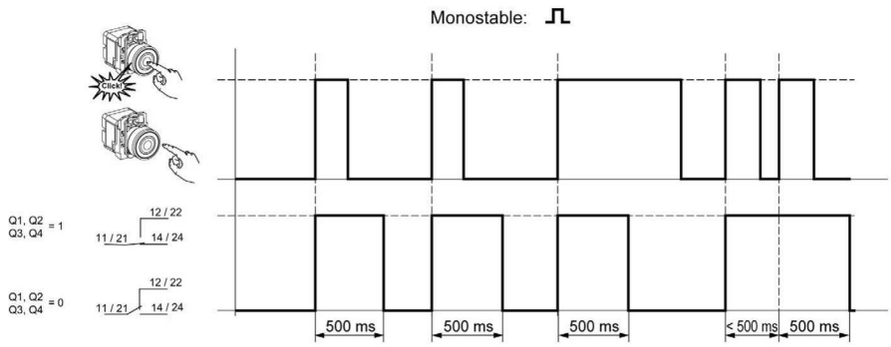
Synthesis



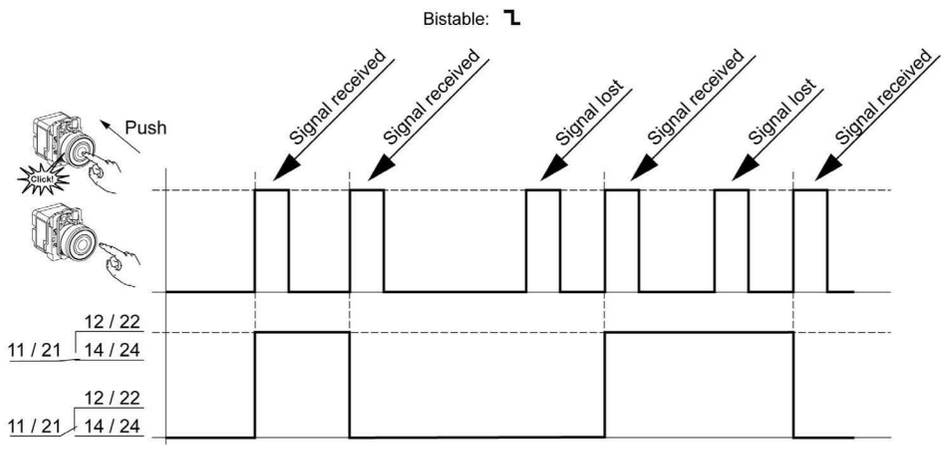
RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Output mode: Monostable - Bistable - Stop/Start - Set/Reset

Monostable Output: Factory setting for packages and for ZBRRA, ZBRRC, and ZBRRD



Bistable Output: Only for XB•RFA02, XB5RMA04, ZBRRA and ZBRRD

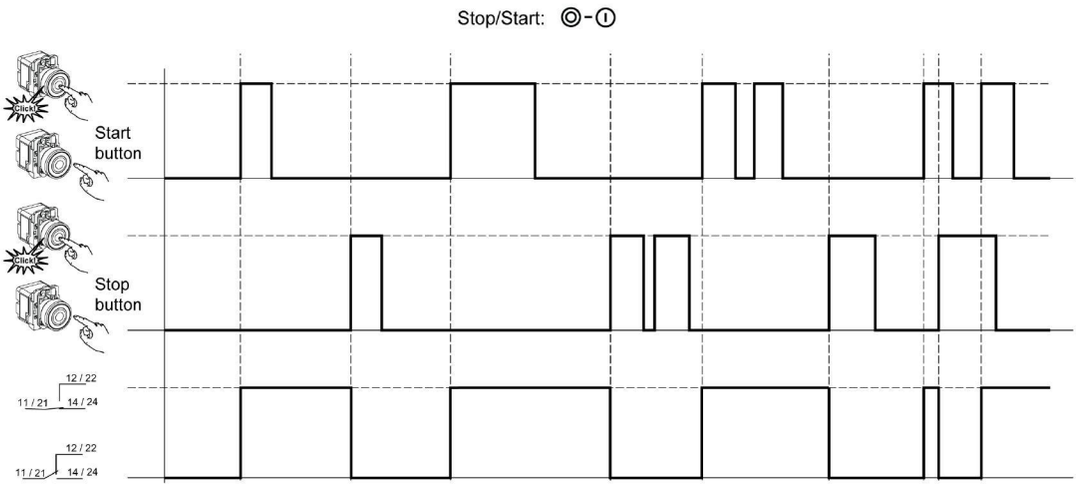


NOTE: If the radio message is lost, the operator has to repeat the command.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Stop/Start Output Standard Operation: Only for ZBRRA

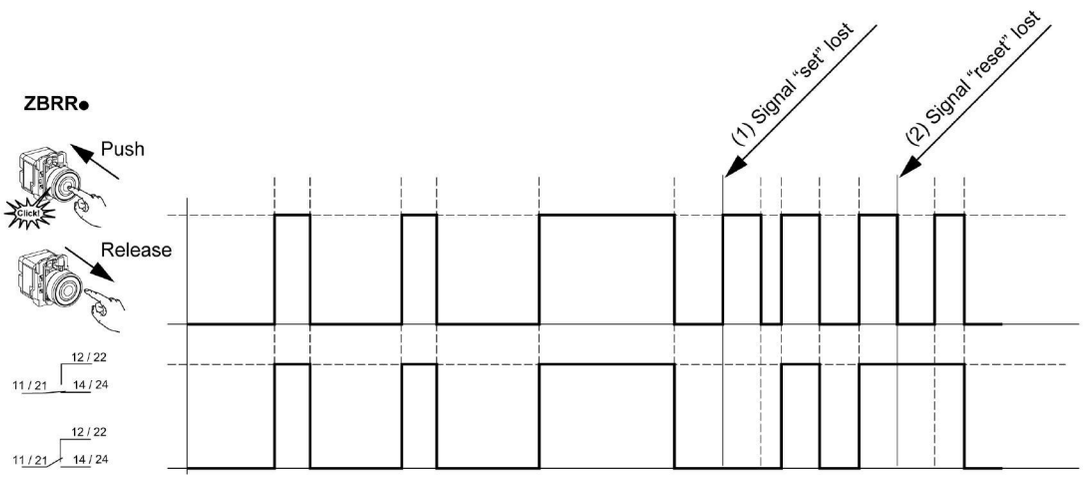
Description for situations where Stop button does not have priority over Start button:



NOTE: This function requires two transmitters.

Set/Reset Output: Only for ZBRRA, ZBRRC, and ZBRRD

This output mode is active only when the ZBRT2 transmitter is used.



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

NOTE:

1. Release and push again to resynchronise
2. Push and release again to resynchronise

Power outage and restore management

If the duration of a power outage is less than the power supply filtering time (approx. 7 ms), there will be no impact on the receiver, which continues normal operation. Power outages longer than the filtering time cause the product to restart when power is back. At restart the outputs will be in their initial states with LEDs off.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Changing outputs from Monostable to Bistable for XB•RFA02, XB5RMA04, ZBRRA, and ZBRRD

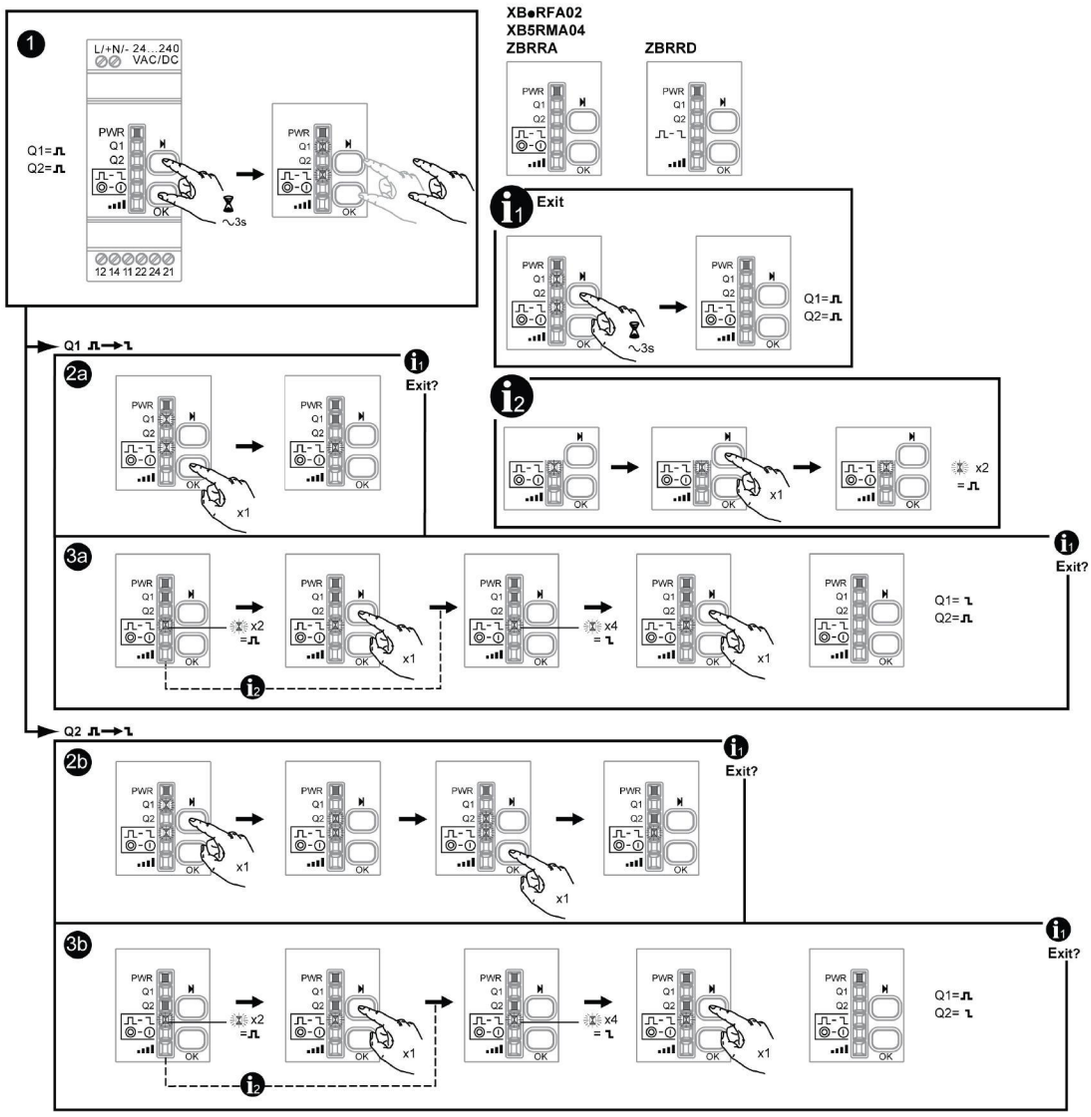
Procedure

This procedure shows how to change Q1 and Q2 outputs from monostable to bistable.

The icons shown have the following meanings:

LEDs	Meaning
	On
	Flashing
	Monostable
	Bistable

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Changing Outputs From Monostable to Stop/Start for XB•RFA02, XB5RMA04, ZBRRA

Procedure

This procedure shows how to change from monostable to Stop/Start for Q1 and Q2

The icons shown have the following meanings:

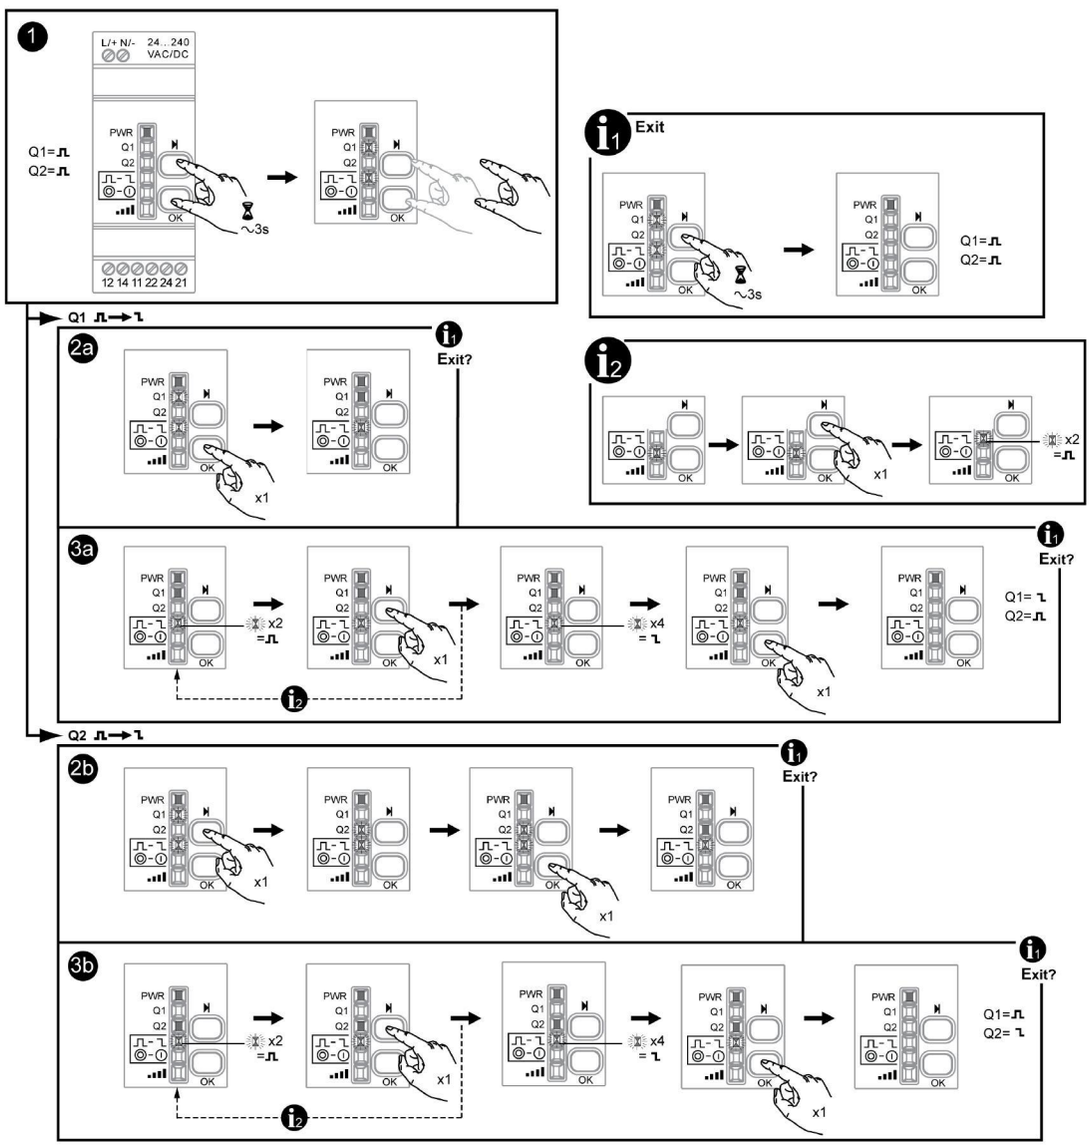
LEDs	Meaning
	On
	Flashing
	Monostable
	Stop/Start

NOTE: When changing the output from Monostable to Stop/Start, all the registered ID for this output will be automatically canceled from the receiver memory.
For information this also happens for the three following cases:

- From bistable to Stop/Start.
- From Stop/Start to monostable.
- From Stop/Start to bistable.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

When changing the output from Monostable to Bistable, or Bistable to Monostable, the registered ID are not cancelled from the receiver memory.



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

How to Teach/Unteach Monostable, Bistable or Set/Reset Outputs for XB•RFA02, XB5RMA04, ZBRRA, ZBRRC, and ZBRRD

Procedure

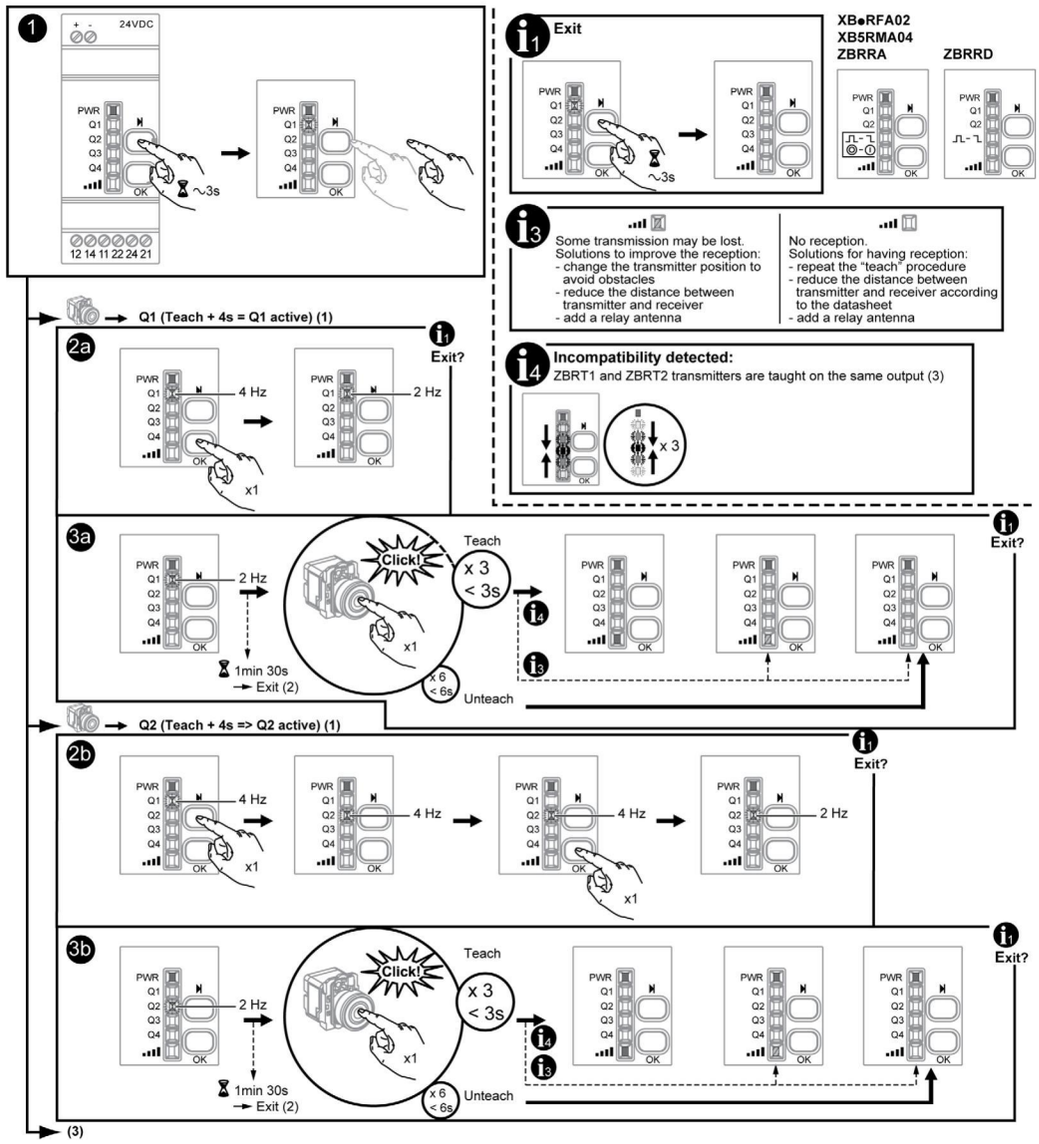
This procedure shows how to Teach/Unteach Q1 and Q2 outputs (ZBRRA) and Q1, Q2, Q3 and Q4 outputs (ZBRRC) when using monostable or bistable outputs.

The icons shown have the following meanings:

LEDs	Meaning
	Green
	Yellow
	Flashing
	Monostable
	Bistable
	Stop/Start

NOTE: It is possible to store a maximum of 32 ID. For example, 32 ID on Q1 output and 0 ID on Q2 output, or 22 ID on Q1 output and 10 ID on Q2 output, can be stored on ZBRRA and ZBRRC. When trying to teach a 33rd ID, all LEDs (except the power LED) flash quickly.
This 33rd ID is not taught.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here



1) The Q1, Q2, Q3 or Q4 outputs will be active only 4 s after the teaching procedure.
2) The teaching procedure must be performed within 1 min 30 s.
3) The teach procedure on Q3 and Q4 outputs is the same. The Q3 or the Q4 output must be selected and when the Q3 or Q4 LED is flashing at 2 Hz, the button can be taught.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

How to Teach Stop/Start Outputs for XB•RFA02, XB5RMA04, ZBRRA

Preliminary information

By default, the relay option is monostable. Before proceeding, change the relay option to Stop/Start. Changing Outputs From Monostable to Stop/Start *(see page 60)* for more information.

Procedure

This procedure shows how to teach Q1 and Q2 outputs when using Stop/Start outputs.

The icons shown have the following meanings:

LEDs	Meaning
	Green
	Yellow
	Flashing
	Monostable
	Bistable
	Stop/Start

NOTE: It is possible to store a maximum of 32 ID. For example, 32 ID on Q1 output and 0 ID on Q2 output or 22 ID on Q1 output and 10 ID on Q2 output, can be stored on ZBRRA.
When trying to teach a 33rd, all LEDs (except the power LED) flash quickly.
This 33rd ID is not taught.

⚠ WARNING

UNINTENTED EQUIPMENT OPERATION

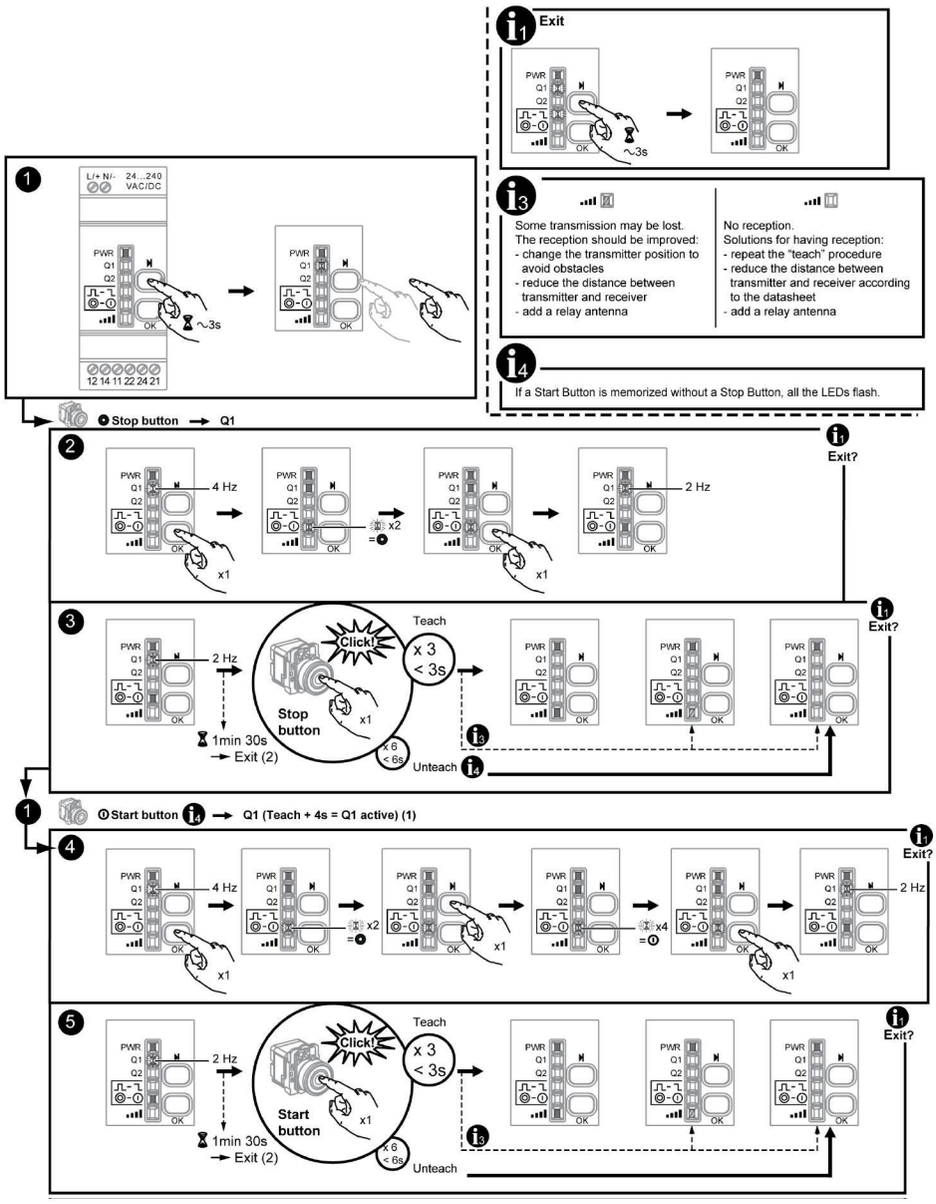
Do not leave the receiver without taught Stop button.

Failure to follow these instructions can result in death, serious injury, or equipment damage.

NOTE: For the teach procedure the Stop buttons must be taught before the Start ones. If you start by teaching a Start button (without any Stop button taught) all the LEDs flash. For the unteach procedure all the Start buttons must be untaught before the Stop ones.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

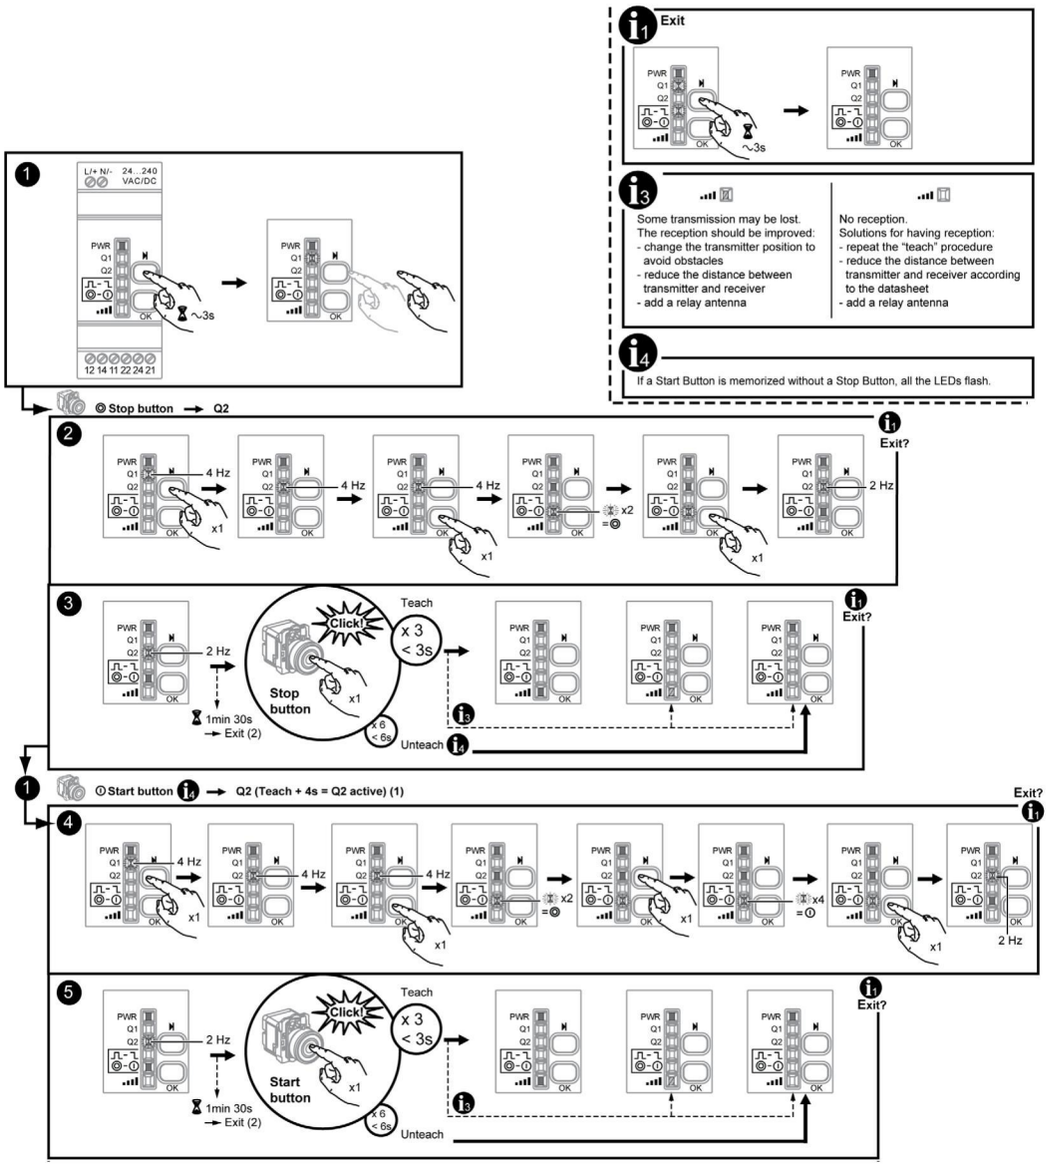
How to Teach Q1 for Stop/Start



1) The Q1 output will be active only 4s after the teaching procedure.
2) The teaching procedure must be performed within 1min 30s.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

How to Teach Q2 for Stop/Start



1) The Q2 output will be active only 4s after the teaching procedure.
2) The teaching procedure must be performed within 1min 30s.

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

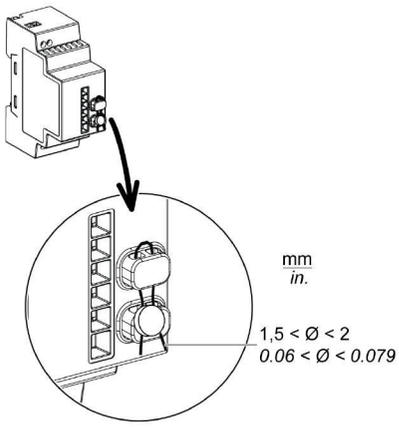
Lock/Unlock for XB•RFA02, XB5RMA04, ZBRRA, ZBRRC, and ZBRRD

Introduction

Lock enables to block the menus access by non authorized persons. The functioning of the receiver is not affected.

Mechanical Lock/Unlock

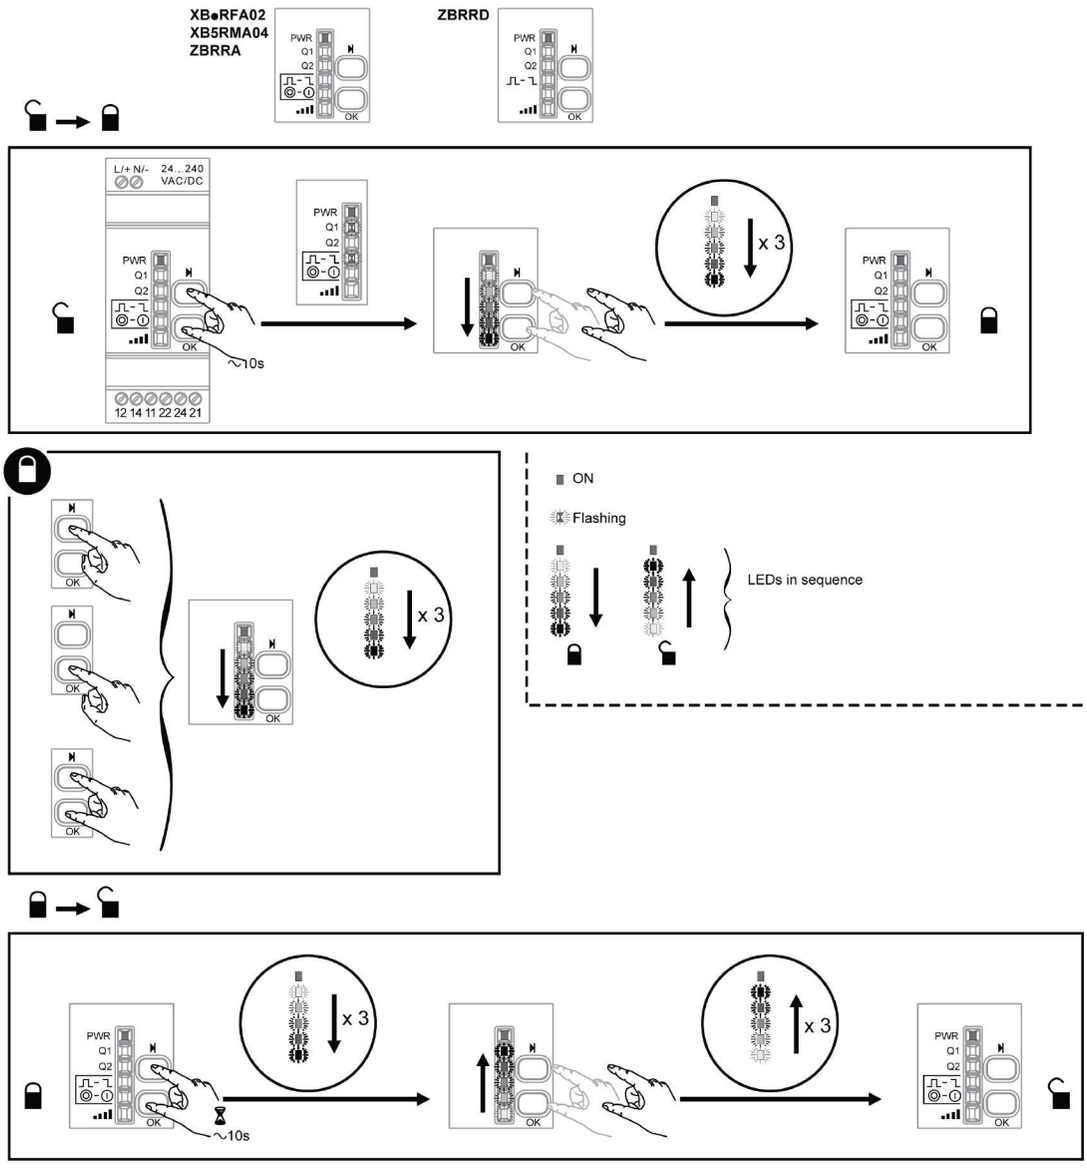
The following diagram shows how to perform buttons mechanical lock.



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Electronic Lock/Unlock

This procedure shows how to electronically lock/unlock the receiver.



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Chapter 4
Other Functions for Harmony XB5R

Other Functions Description

Total Reset and ID Reset procedure for XB•RFA02, XB5RMA04, ZBRRA, ZBRRC, and ZBRRD

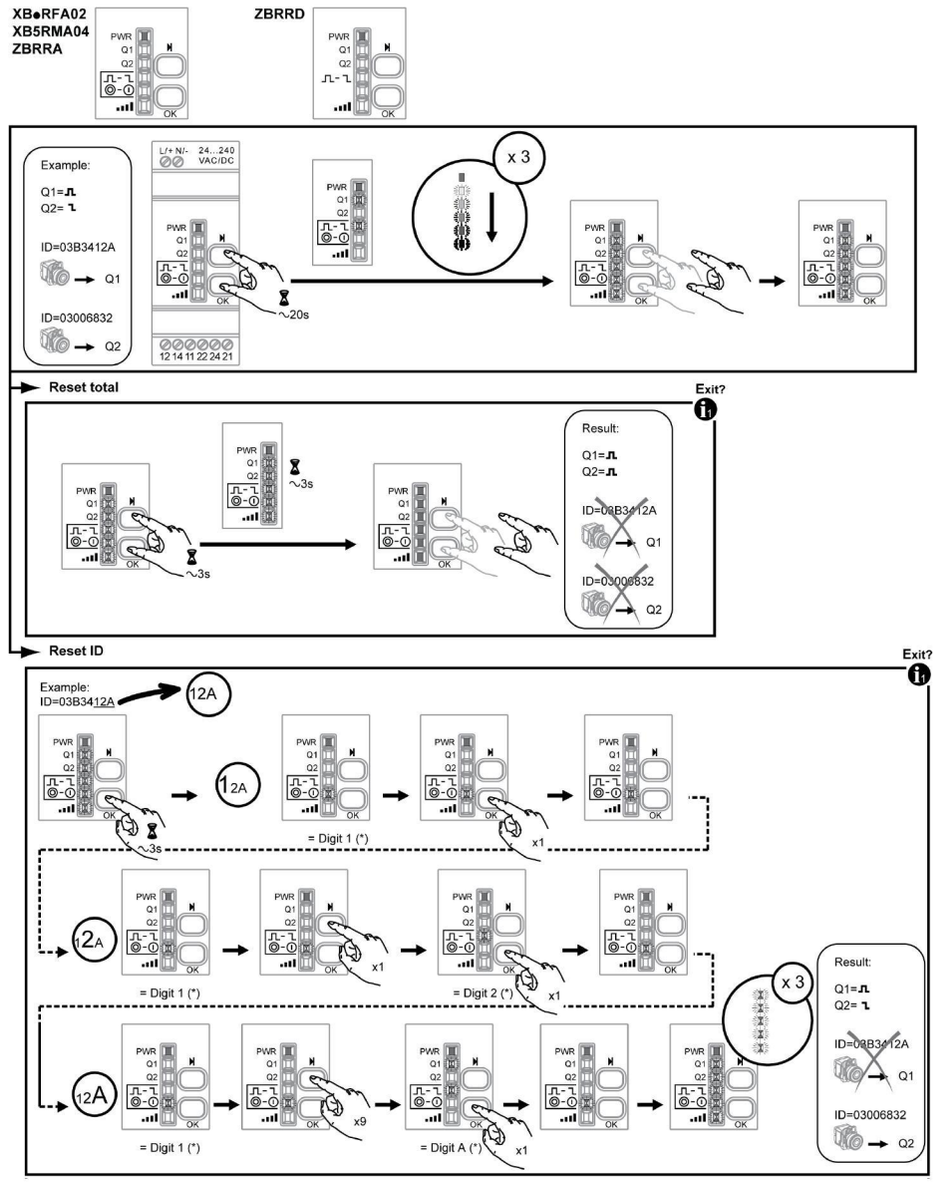
Total Reset: After a Total Reset the receiver is on factory setting. All outputs are set to monostable function and all the registered ID are canceled.

ID Reset: This function enables to cancel an ID without having the push button (e.g: lost push button). Only the transmitter ID is needed. The ID cancelation does not effect the output function.

NOTE: To reset an ID, the last 3 digits are needed. The first, second and third digits must be entered as binary coded numbers in the receiver during the ID Reset procedure.

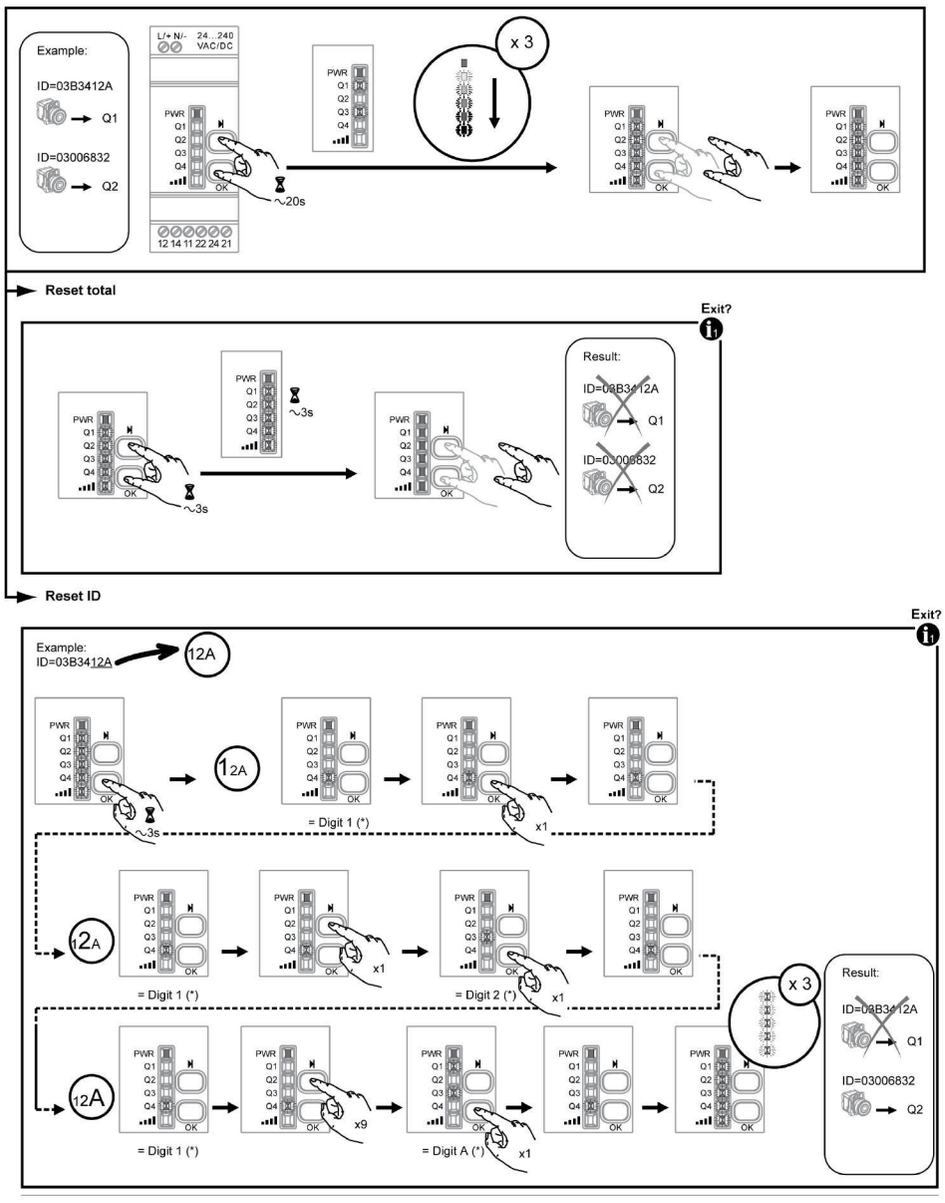
RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

For ZBRRA and ZBRRD:

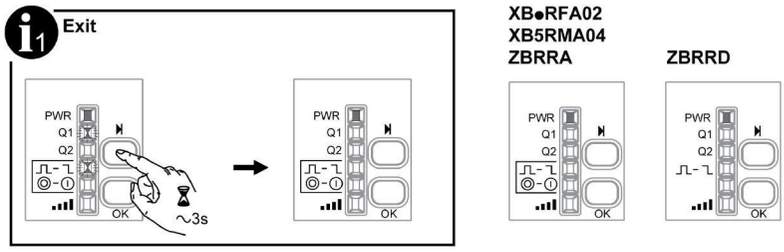


RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

For ZBRRC:



RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here



ID Binary Coding

LED			(*): Digit ID														
ZBRRC	ZBRRA	ZBRRD	1	2	3	4	5	6	7	8	9	A	B	C	D	E	F	0
Q1 Q2 Q3 Q4	Q1 Q2 ⎍-⎍ ◎-①	Q1 Q2 ⎍-⎍

Chapter 5
Harmony XB5R ATEX Products

Purpose

This chapter provides an overview of the Harmony XB5R ATEX products.

What Is in This Chapter?

This chapter contains the following sections:

Section	Topic	Page
5.1	Transmission Products	74
5.2	Reception Products	81
5.3	Functions	88

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com
See the product details here

Section 5.1
Transmission Products

Overview

This section describes the ATEX transmitter products.

What Is in This Section?

This section contains the following topics:

Topic	Page
Presentation of ATEX Transmission Components	75
ID Registration	77
Assembly, Disassembly, and Mounting Instructions	79
XAWGR•••EX Mounting Instructions	80

RSPSupply - 1-888-532-2706 - https://www.RSPSupply.com

Presentation of ATEX Transmission Components

ATEX Transmission Components

⚠ DANGER

HAZARD OF EXPLOSION

These devices must be installed, used, and maintained in accordance with:

- Standard EN60079-14 (Explosive atmospheres), part 14 (Electrical installations design, selection, and erection).
- Standard EN60079-17 (Explosive atmospheres), part 17 (Electrical installations design, selection, and erection).
- Standard NF C15 100 (Low voltage electrical installations) - European equivalent: IEC 6034.
- Regulations governing setup of the zone or zones for which the devices were designed.

Failure to follow these instructions will result in death or serious injury.

⚠ WARNING

UNINTENDED EQUIPMENT OPERATION

- Do not use this equipment in safety critical and hoisting machine functions due to:
  - No permanent communication.
  - No acknowledge of the message from the receiver to the transmitters.
- Use appropriate safety interlocks where personnel and/or equipment hazards exist.
- Do not disassemble, repair, or modify this equipment.
- Install and operate this equipment in an appropriately rated enclosure for its intended environment.
- Install properly rated fuses.
- Check that the control is inactive if the product falls during transit.

Failure to follow these instructions can result in death, serious injury, or equipment damage.
