

Multi-Network, Dual Radio, 5G LTE Rugged Vehicle Router for Transit, Rail and First Responder Fleets

MG90 Product Description

The best-in-class AirLink® MG90 is purpose built for transit, rail and first responders with dual-Cellular radios and dual Gigabit Wi-Fi delivering always-on connectivity with extensions to Land Mobile Radio (LMR) and satellite systems.

AIRLINK MG90 5G

5G router (fallback to LTE Cat20). Capable of up to 4.14 Gbps downlink and 660 Mbps uplink speeds. Dual 2x2 or single 4x4 radios. Dual Wi-Fi radios.

AIRLINK MG90 LTE-A PRO

Rugged Cat 12 LTE router capable of up to 600 Mbps downlink and 150 Mbps uplink speeds. FirstNet Ready. Dual or single radios. Dual Wi-Fi radios.

AIRLINK MG90 LTE-A

Rugged Cat 6 LTE router capable of 300 Mbps downlink and 50 Mbps uplink speeds. Dual or single LTE radios. Dual Wi-Fi radios.

Ideal Applications

Mobile mission critical applications in public safety and field service fleets, Fixed Wireless Access, SCADA, Edge and industrial IoT.

- Buses/Transit
- Ambulance/EMS
- Law Enforcement
- Fire
- Utility

Benefits

- 5G connectivity delivers massive amounts of real-time data needed for mission-critical applications
- Proven solution: More than 25% of the top 50 transit agency vehicles and 75% of high-performance EMS systems depend on Sierra Wireless routers.
- Increases safety, transparency and compliance while maximizing system expandability and ROI
- Delivers advanced awareness of fleet operations with built-in vehicle I/O for remote monitoring of auxiliary devices such as light bars, sirens and gun racks

About Sierra Wireless

Sierra Wireless (NASDAQ: SWIR) (TSX: SW) is a world leading IoT solutions provider that combines devices, network services, and software to unlock value in the connected economy. Companies globally are adopting 4G, 5G, and LPWA solutions to improve operational efficiency, create better customer experiences, improve their business models, and create new revenue streams. Sierra Wireless works with its customers to develop the right industry-specific solution for their IoT deployments, whether this is an integrated solution to help connect edge devices to the cloud, a software/API service to manage processes with billions of connected assets, or a platform to extract real-time data to improve business decisions. With more than 25 years of cellular IoT experience, Sierra Wireless is the global partner customers trust to deliver them their next IoT solution.
