

Technical change to M12 nut with additional hexagonal mounting

Dear Madam or Sir,

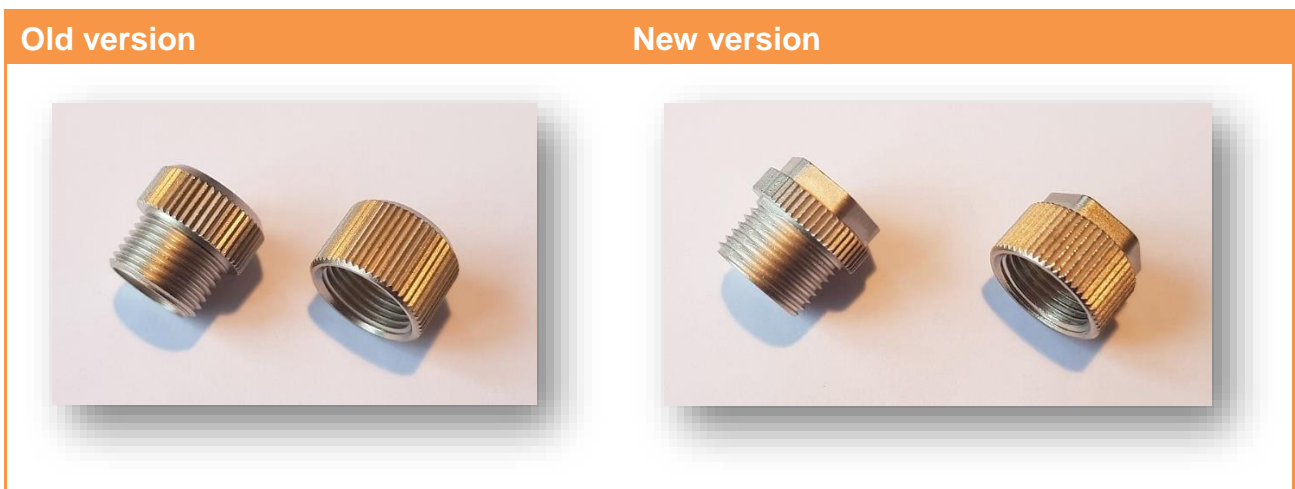

the products listed below are subject to a product change and will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications mentioned have been made to support our ongoing commitment to continual improvement and ongoing product development.

1. Initial situation

The M12 nut has a complete knurling.

2. Technical change

Additional to the knurling the new M12 nut has a hexagonal mounting, with the wrench size 12mm.

3. Reason for change

Improve of the M12 nut handling due to the additional option to fasten the M12 nut with interchangeable blade with wrench size 12mm. The Screwty® can still be used as usual, the suitable interchangeable blade with wrench size 12mm is the 2598970000.

4. Availability

The production of the new version will start Q3 2018, it is possible to get mixed deliveries during the following month.

5. Affected parts

The changeover is carried out successively for the M12 nut. As first the M12 unshielded 3- to 5-pole cord sets will be changed.

6. Data
